Asthma Seminar

A life changing seminar for
asthma sufferers!

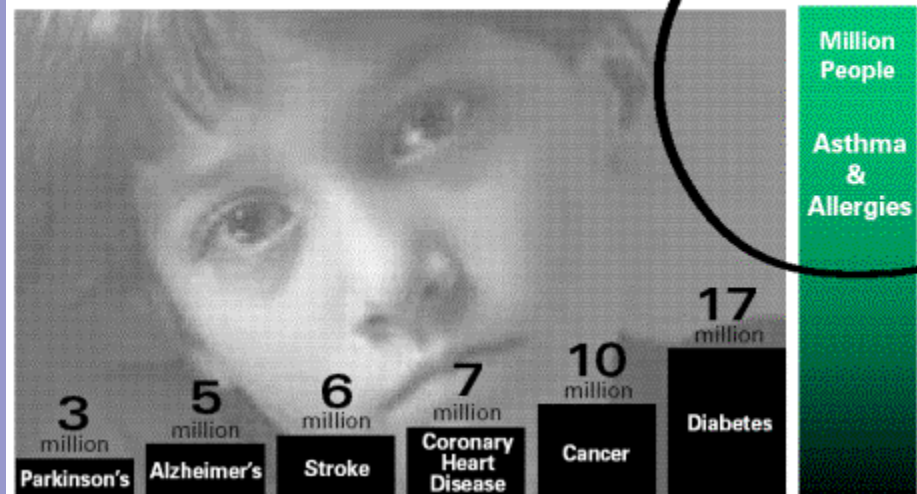

Date: 1/27/2010

Time: 6:30pm

DID YOU KNOW?

- The prevalence of asthma increases every year.
- Asthma affects 1 in 15 people.
- Everyday 40,000 people miss school or work due to asthma.
- Over 50% of the cases are "allergic - asthma"
- A new treatment is offering new hope & relief!

Asthma and allergies strike 1 out of 4 Americans

Seminar Highlights:

- Help yourself or someone you know overcome asthma once and for all.
- Stop treating only the symptoms, and start treating the actual cause of asthma.
- Learn why medications don't work and what the long term side effects really are.
- Explore the newest treatment technology, the BAX3000 Laser Allergy System.
- Discover what kind of stress affects asthma sufferers the most.
- Find your way out of the medical maze, and learn to live life without limits.
